Our Strategic Priorities

Strategic Priority 1

Embed Truth and Reconciliation, anti-oppression and anti-racism practices in our organization.

Outcomes

- ▶ Our organizational culture, Board of Directors, employees and resource families are inclusive and reflect and value diversity.
- ▶ Through our values and practices, we influence attitudes and ultimately the referrals we receive so they are based on child safety, not judgment or bias — countering the over-representation of Indigenous, racialized and other marginalized groups.
- ▶ We have prioritized the advancement of the Ontario Association of Children's Aid Societies' commitments for Truth and Reconciliation and equity in child welfare.
- ▶ Our services and connections respect the culture, traditions, race and social identity of each child, youth and family we serve.
- ▶ Our connections with First Nations, Inuit and Métis representatives, families, communities and cultures support the distinct identities and cultures of Indigenous children and families we're involved with.
- ▶ We provide French-language services at all levels of our organization.

Strategic Priority 3

Empower children and youth in care to reach their full potential.

Outcomes

- ▶ Children and youth in care celebrate their identities and connect to their cultures.
- ▶ More resource families are available to provide quality care and support for children and youth.
- ▶ Youth leaving care have relationships with their families and broader social networks.
- ▶ Youth graduate high school and complete the highest level of education needed to pursue their career goals.
- ▶ Youth leave care feeling empowered and confident about their futures.

Strategic Priority 2

Strengthen and preserve families.

Outcomes

- ▶ Families are engaged effectively, receive tailored support and experience minimal disruption.
- ▶ Children and youth are rarely removed from their homes and, when that is required, are away for limited periods of time and maintain family connections.
- ▶ Families are confident seeking support to keep children and youth safe at home.
- ▶ Our partners understand their roles and assume shared responsibility for strengthening and preserving families based on the principles of the child welfare redesign.
- ▶ Our partners work together to ensure timely access to services; address critical gaps in services; and intervene early to keep children and youth with their families.

Strategic Priority 4

Embrace change and innovate while advancing our mission.

Outcomes

- ▶ Our service delivery model helps maintain continuity of relationships between our agency and children, youth and families as long as needed.
- ▶ As a learning organization, we offer our employees training and opportunities to enhance their skills and capacity.
- ▶ We provide support so our employees can maintain healthy work-life balances while also being responsive to the needs of children, youth and families.
- ▶ Our planning and decision-making are guided by the experiences of children, youth and families, and by qualitative and quantitative data.
- ▶ Our Board of Directors and senior leaders work to ensure we have the resources and capacity to fulfill our mission.
